The conference was proposed by the sixth International conference of
American states, 1928; it was developed through the agency of the Gov-
erning board of the Pan American union, working first through a special
committee on agriculture and later through a permanent committee
on agriculture. The permanent committee, in turn, organized national
committees for agricultural cooperation in the countries members of
the union.

Proceedings of the ... National conservation congress ...
1st-4th; 1909-12. Washington, D. C., National conservation
congress, 1910-12.
4 v. ports. 23 1/2".
Vol. 1 has title: Addresses and proceedings (which is also the cover-
title of each volume)
The arrangements for the 1st congress were made by the Washing-
ton conservation association.
Proceedings of the 5th congress, 1913, were apparently not published
in volume form, but in separate publications for the subjects covered
(forestry, water power). They are not included in the present entry,
but are entered under the heading for the 5th congress.
There is record of a congress held in 1916. [cf. Forestry quarterly,
v. 14, 1916, p. 300] but no mention of proceedings has been found. The
congress ceased to exist shortly after.

National fertilizer association.

Three associations have borne the name of National fer-
tilizer association.
1st founded 1883 as National fertilizer association, existed
until 1887.
From 1887 to 1903, no organization existed.
2d. founded 1883 as Fertilizer manufacturers' association in
the West; known (after 1902) as Fertilizer manufacturers'
association; name changed 1907 to National fertilizer associa-
tion.
3d. founded 1925 by the union of the former National fer-
tilizer association (of no. 2, above) and the Southern fer-
tilizer association. The new organization took the name of Na-
tional fertilizer association.
The three associations are distinguished by dates in their
publication titles.

National Fertilizer Association.

On July 1, 1955, the National Fertilizer Asso-
ciation was consolidated with the American Plant
Food Council to form the National Plant Food

National implement and vehicle association.

The association was organized on April 18, 1894, as National association of agricultural implement manufacturers. When its constitution was adopted in October 1894, the name was changed to National association of agricultural implement and vehicle manufacturers. Later (date unknown) it became the National implement and vehicle association. The name was changed at the annual convention, Oct. 1921, to National association of farm equipment manufacturers. See its Proceedings 1921, p.139.

National Institute of Social Sciences.

In 1912 the institute was organized as a department of the American Social Science Association. By 1921 the association, feeling that the institute had virtually taken over its principal field of activity, elected no further officers. When the institute learned upon application, that Congress no longer granted Federal charters, it contacted those association officers still in power to consent to giving the institute the association's charter through congressional amendment of the association's constitution. This amendment brought to a close the life of the association on June 16, 1926.

National Nutrition Research Institute (South Africa)

In 1952 a human nutrition research division was established in the Dept. of Nutrition. Later this division was abandoned in favor of a nutrition research unit under the South African Council for Scientific and Industrial Research. In October, 1954, this unit became an independent institute, the National Nutrition Research Institute.
